COLLEGE MINOR PROJECT — ACADEMIC SUBMISSION FORM

ORIGINALITY & PLAGIARISM SELF-DECLARATION

Project Title: MailMint — AI Professional Email Writer

Application Name:	MailMint (AI-Powered Professional Email Writer)
Developer:	Anmolpreet Singh
Co-Developer:	Mridul Sharma
Implementation Stack:	HTML5, CSS3, Vanilla JavaScript (ES6+), Python 3 (Flask)
License & Third-Party APIs:	MIT Open-Source License • 100% Free Tier LLM REST APIs

1. Statement of Original Authorship

We, Anmolpreet Singh (Developer) and Mridul Sharma (Co-Developer), hereby declare that the source code, user interface design, system architecture, UML diagrams, and project documentation submitted for the Minor Project titled 'MailMint — AI Professional Email Writer' represent our original academic engineering work.

All custom application files — including app.py, lib/llm_providers.py, templates/index.html, static/css/style.css, and static/js/app.js — have been authored cleanly from scratch without unauthorized copying of proprietary commercial codebases.

2. Open-Source Libraries & Institutional Verification Note

- Standard open-source Python packages (Flask, Flask-CORS, Requests, Python-Dotenv) and Google Fonts (Inter) are properly declared in requirements.txt and cited in the report.
- Note for Department Submission: If your institution mandates an official Turnitin / DrillBit / Urkund similarity receipt, run MailMint_Project_Report.docx through your college library's official portal and attach the generated receipt alongside this form.
